Somebody jumped the gun and let it be known that this was happening, obviously prematurely :-) In the process a lot of misinformation was spread :-(The agenda is available online. I can't say whether or not it will come up another time but if so not in its present form which is too divisive and inflammatory to consider as evidenced by the maelstrom it generated :-/

Calling the Boycott, Divestment and Sanctions movement anti-Semitic is like saying the sanctions imposed on South Africa during apartheid were anti-white. The purpose of the boycott is to pressure Israel to change its policies in order to restore the rights of the Palestinian people. Please do not cave in to the emotionally charged rhetoric of groups like the Israeli-American Coalition for Action.

Please support the progressive values of our city, and vote for the boycott resolution.
